

Izundu Chibuzo

38 Atlantis Close, Barking London IG11 0GH

Email: izucomens@yahoo.com

Mobile: 07950879362

Qualifications:

- MSc Computer Networking – London Metropolitan University (2014)
- Professional IT Training - Zoom Technologies Hyderabad, India (2010-2011)
- Internet Technology and Cyber Security, Computer Networks, data Center Communication and Networks, Management Information Systems.

Certifications:

- Juniper JNCIA-JUNOS
- Checkpoint CCSA Certified (GAiA R77)
- CCNP R&S
- CCNP Security – (remain one exam)
- CCNA Data Center
- MCSE 2003.

Major Skills:

- Fault Finding and Network Troubleshooting.
- Good Communication skills.
- Configuring Cisco & Juniper Routers, Switches.
- Configuring Cisco ASA, Firepower, Juniper, Fortigate & Checkpoint Firewalls
- Configuring Palo Alto Firewall (v6 & v7)
- Routing Protocols – RIP, EIGRP, OSPF and BGP.
- Network Address Translations (NAT) and Access Control Lists (ACLs).
- IP Addressing, Subnetting, PortChannel, VPC, FCoE, VLANs & VRF.
- AD, Group Policy and User Account managements.
- Network Management and Monitoring tools CA Spectrum, WhatsUp Gold, DCNM, CACTI, Solarwinds.
- Design, Build & Implement Avocent, Raritan Console Server.
- TCP/IP Networks.
- Installation, Troubleshooting and Maintenance of DNS, DHCP, IPAM.
- Microsoft Windows 2012 R2 Server, Active Directory
- HLD & LLD Network Design using Visio.
- Remote Support for Mobile Clients.
- Formal Presentation and Building Customer Loyalty.

Work Experiences:

Feb 2018 – Till Date

Senior Network/Security Consultant (Active SC Clearance)

Great Ormond Street Hospital London UK (NHS)

- Consultant for a TR Project which involves redesigning network/security networks and migrating two (2) new Data Centres in UK.
- Design of Medium/Large LAN, WAN & Security Enterprise Data Centre Networks
- Migrating from Cisco ASA 5555-X to Firepower FTD 2110, 4110
- Design Manage and Administer Cisco Firewalls & Firepower (ASA5555,4110, 2110)
- Build and Implement Cisco Firepower Management Console (FMC)
- Design Manage and Administer Fortinet Firewalls.
- 2nd, 3rd & 4th Line Support and Implementation Role in Data Centre Enterprise Network
- Configuration & Implementing EIGRP, OSPF, BGP, Vlan, HSRP,
- Build, Configure and Implement PaloAlto - PA 200, 5220
- Build and Implement Palo Alto Panorama M-100
- Design, Configure, Implement and Troubleshoot BIG-IP F5 Load-Balancer – LTM, vCMP host, Guests, Route Domains etc
- Build and Implement Cisco ISE v1.x, v2.x.
- Configuration of Cisco Routers, Cat Switches (3850,9300,9500) & Nexus(2k,5k,7k,9k)
- Configure and Implement Cisco ASA, WSA, ESA, Prime, CSM,
- Manage and Administer Site-2-Site, RA & Web VPN
- Documentation using Visio for LAN, WAN & Security environments.
- Provide both remote and telephone support to engineers on sites

Oct 2017 – Dec 2017

Senior Network Engineer (Active SC/MoD Clearance)

Logicalis UK

- Team Leader for a Technical Refresh Project which involves migrating two (2) new Data Centres in UK.
- Migrating over 80 VPN sites to HQ from Cisco ASA55xx to PaloAlto - PA 200, 5220.
- Build and Implement Palo Alto Panorama M-100.
- 2nd, 3rd & 4th Line Support and Implementation Role in Data Centre Enterprise Network
- Configuration & Implementing RIP, EIGRP, OSPF, BGP, Vlan, HSRP, VRRP, GLBP
- Build and Implement Cisco ISE v1.x, v2.x.
- Configuration of Cisco Routers (ASR 9k), Switches (65xx,45xx,3xxx,2xxx)
- Design of Medium/Large LAN, WAN & Security Enterprise Data Centre Networks
- Configure and Implement Cisco ASA Firewall, Palo Alto Firewall.
- Design Manage and Administer Firewall (FTD 4110,2110, FMC, ASA 55xx, Palo Alto 52xx & 7xxx & Checkpoint GAIA R77.30)
- Manage and Administer VPN, Authentication, Authorization, Accounting

Jan 2017 – Sept 2017

Senior Network Engineer (Active SC/MoD Clearance)

DXC (former CSC) UK

- Team Leader for a Technical Refresh Project which involves building 3 new Data Centres in UK.
- 3rd & 4th Line Support and Implementation Role in Data Centre Enterprise Network
- Configuration & Implementing RIP, EIGRP, OSPF, BGP, Vlan, HSRP, VRRP, GLBP
- Design and Implement VRF, VPC, VDC, OTL, Fabric path etc
- Build and Implement Cisco ISE v1.x, v2.x.
- Configuration of Cisco Nexus 2k, 5k, 7k & 9k.
- Configuration of Cisco Routers (ASR 1k, 9k), Switches (65xx,45xx,3xxx,2xxx)

- Configuration of Juniper Routers, Switches and Firewalls.
- Design, Build, Implement and Support Core, Distribution and Access layers infrastructure for secured Enterprise Data Centre Networks.
- Design of Medium/Large LAN, WAN & Security Enterprise Data Centre Networks
- Configure and Implement Cisco ASA Firewall with Firepower, Clustering, Firewall Context etc
- Configure, Implement and manage IPS & IDS
- Design, Configure, Implement BIG-IP F5 Load-Balancer, Avocent Terminal Server.
- Manage and Administer Firewall (Cisco 41xx,55xx, NxtGen, Palo Alto & Checkpoint GAIA R77)
- Manage and Administer VPN, Authentication, Authorization
- Documentation using Visio for LAN, WAN & Security environments.

Sept 2016 – Jan 2017

Secured Network Engineer (Active SC Cleared)

ATOS UK

- 2nd & 3rd Line Support and Implementation Role
- Configuration of different Protocols like EIGRP, OSPF, BGP, RIP.
- Knowledge of Cisco ACS/TACAS Server.
- Configuration of Cisco Routers and Switches.
- Configuration of Juniper Routers, Switches and Firewalls.
- Build Implement and Support Core, Distribution and Access layers switches.
- Analyze, configure and troubleshoot medium/enterprise networks.
- Solves product and network problems of medium complexity
- Manage and Troubleshoot Cisco ASA, Palo Alto Firewall, Checkpoint Firewall
- Manage and troubleshoot F5 Load balancer.
- Knowledge of Cisco ESA & WSA Servers.
- Knowledge of CA Spectrum to monitor network devices & data centers.
- Provide documentation and diagrams for LAN, WAN & Security environments.

May 2015 – Sept 2016

IP Network Engineer (SC Cleared)

ARQIVA LTD UK

- Team Leader for various Projects which involve implementing over 800 sites for Smart meter across UK.
- Configuration of different Routing Protocols like EIGRP, OSPF, BGP, RIP.
- Monitoring of Network devices using CACTI, Solarwinds.
- Configure and implement over 400 DSL/ADSL links between HQ & remote sites.
- Configure and Implement over 400 4G/GPRS links between HQ and remote sites.
- Manage and Administer Palo Alto Firewall (PANOS v5 & 7)
- Configuring, implementation and monitoring of cisco IPS, WSA, ESA & ISE server.
- Configuration of Cisco Routers and Switches.
- Build Implement and Support Core, Distribution and Access layers switches.
- Design Configure and Troubleshoot Small/Medium LAN, WAN & Networks.
- Configuration of Nexus 7k, 9k, 5k Switches.
- Manage and Administer Checkpoint Firewall (GAiA R77)
- Configure and Implement Cisco ASA Firewall with Firepower, Clustering
- Configuration and managing DMVPN, VTI, FlexVPN, GETVPN, IKEv2 networks.
- VPN, ACL, NAT on ASA and Checkpoint firewalls.
- HLD & LLD diagrams for LAN, WAN & Security environments.
